

## Four reasons for **krab**

### Tradition since 1990

KRAB BRNO, s.r.o. as company started to write its history in the year 1990. The company was founded by Mr. Aleš Zeman and Mr. Richard Masařík. Over the years the company moved to its production plant in Ivančice, a small village located west from Brno.

### High standard of quality - RAL

Thanks to the knowledge, experience and skills of the employees together with the high quality materials involved in the production, the company produces candles in the best quality. These candles are made according to the standard uphold by the European quality mark RAL. Only fully refined paraffins and stearin, that do not contain harmful materials, are used in the production.

### Flexibility in execution of customer demands

We are able to fulfil customer demands due to the high flexibility of our production. We do offer a wide range of types, shapes and colours. Our production consists of all sorts of technologies – pressing, moulding and also dipping. Contracts for millions or hundreds of pieces are send to the customers as in Czech Republic as on the highly demanding European market.

### Czech product

We are a genuine Czech company, and with our production we seek to support the sub-region of Brno's countryside. We are the holders of the certificate „ČESKÝ VÝROBEK“.

# Tealights

We produce tealights in high quality according to the European RAL quality certificate which we are holder of. These candles are made from first-class hydrogenated paraffin and they are standardly produced with burning time of 4, 8 and 10 hours.

## Teelight 14 g in cup, 10 pcs in box

**EAN:** 8594017670032

# Other candles

From the offer of other candles we present the KRAB frost candle

## Frost candle

KRAB frost candle +/- 5 kg represents a simple and effective possibility of protecting vineyards and orchards from frost with a burning time of +/- 10 hours. Burning time can be affected by weather conditions .

The procedure is not complicated. Distribute the candles evenly in rows between plantings so as not to occur to burn branches! Numbers and distribution of heating candles adapt not only to the intensity of the frost, but also to the strength and direction wind.

Frost candles are also used as a source of heat and light for fishermen.

Companies can order frost candles directly from the manufacturer.

Consumers will be informed where the candles can be purchased.

See the product label for more information.
